Development Description: _____

_____ New Construction	_____ Alteration or Repair	_____ Filling
_____ Grading	_____ Dredging	_____ Manufactured Home

Development Type:

_____ Residential	_____ Commercial	_____ Industrial
-------------------	------------------	------------------

Base Flood Elevation at Site: _____ ft. m.s.l.

Expected Lowest finished Floor Elevation: _____ ft. m.s.l.

A floor elevation or flood proofing certification is required after the lowest finished floor is completed. Within twenty-one (21) calendar days of establishment of the lowest finished floor elevation, it is the duty of the permit holder to submit certification of the lowest finished floor elevation or flood proofing elevation, as applicable, in relation to mean sea level. Said certification shall be prepared by or under the supervision of a registered land surveyor, professional engineer, architect or certified by the same. Any work undertaken within the twenty-one (21) day calendar period and prior to submission of the certification shall be at the permit holder’s risk. Deficiencies detected upon review shall be corrected by the permit holder immediately and prior to any further progressive work. Failure to comply with this section shall be cause for the immediate issuance of a “stop work” order for the project.

Floodways: There shall be NO encroachment into a delineated floodway until full compliance with the Ordinance has occurred including the submission of a “No-Rise Certification”.

This development permit is hereby issued pursuant to the information included in the submitted Flood Hazard Development Permit Application and all additional evidence/information submitted in determining the compliance of the proposed work with the Town of Louisburg Special Flood Hazards Ordinance. Upon the determination that any information which has been completed herein or within the submitted application is incorrect, the Town of Louisburg may undertake actions to initiate a stop work order in order to cease all development until compliance shall be determined.
